

HiBoost AR25N Lightning Arrester

Overview

A lightning arrester keeps your HiBoost installation system safe by protecting against voltage surges and lightning strikes.

Key Features

- Wide Band(0-3000 MHz)
- Exquisite Appearance
- Easy to install
- Weather-resistant
- Frequency range up to 3GHz
- Extends equipment life in harsh environments

Specification

Frequency Range	0-3000MHz
VSWR	≤1.2
Input Impedance	50Ω
Polarization	Vertical 0.29lbs
Weight	0.13Kg
Connector Type	N-K
Dimension	1*1*2.8inch/ 25*25*70mm
